WHY SHOULD THE LUXURY OF COMFORT
AND SPACE BE RESTRICTED TO A SELECT FEW?
HOW LONG WILL WE DRIVE COMPROMISES?

NOT ANYMORE.

WE HAVE REIMAGINED THE CODES OF LUXURY,
REDEFINED THE BENCHMARKS OF COMFORT,
AND REKINDLED THE IDEA OF IMMERSIVE TRAVEL.

SO YOUR DRIVES FEEL BEYOND THE ORDINARY.
SO YOU TRAVEL FURTHER.

SO YOU DISCOVER MORE IN YOUR JOURNEYS.
SO YOU ENJOY AN EXPERIENCE THAT'S

TRULY A CLASS APART.

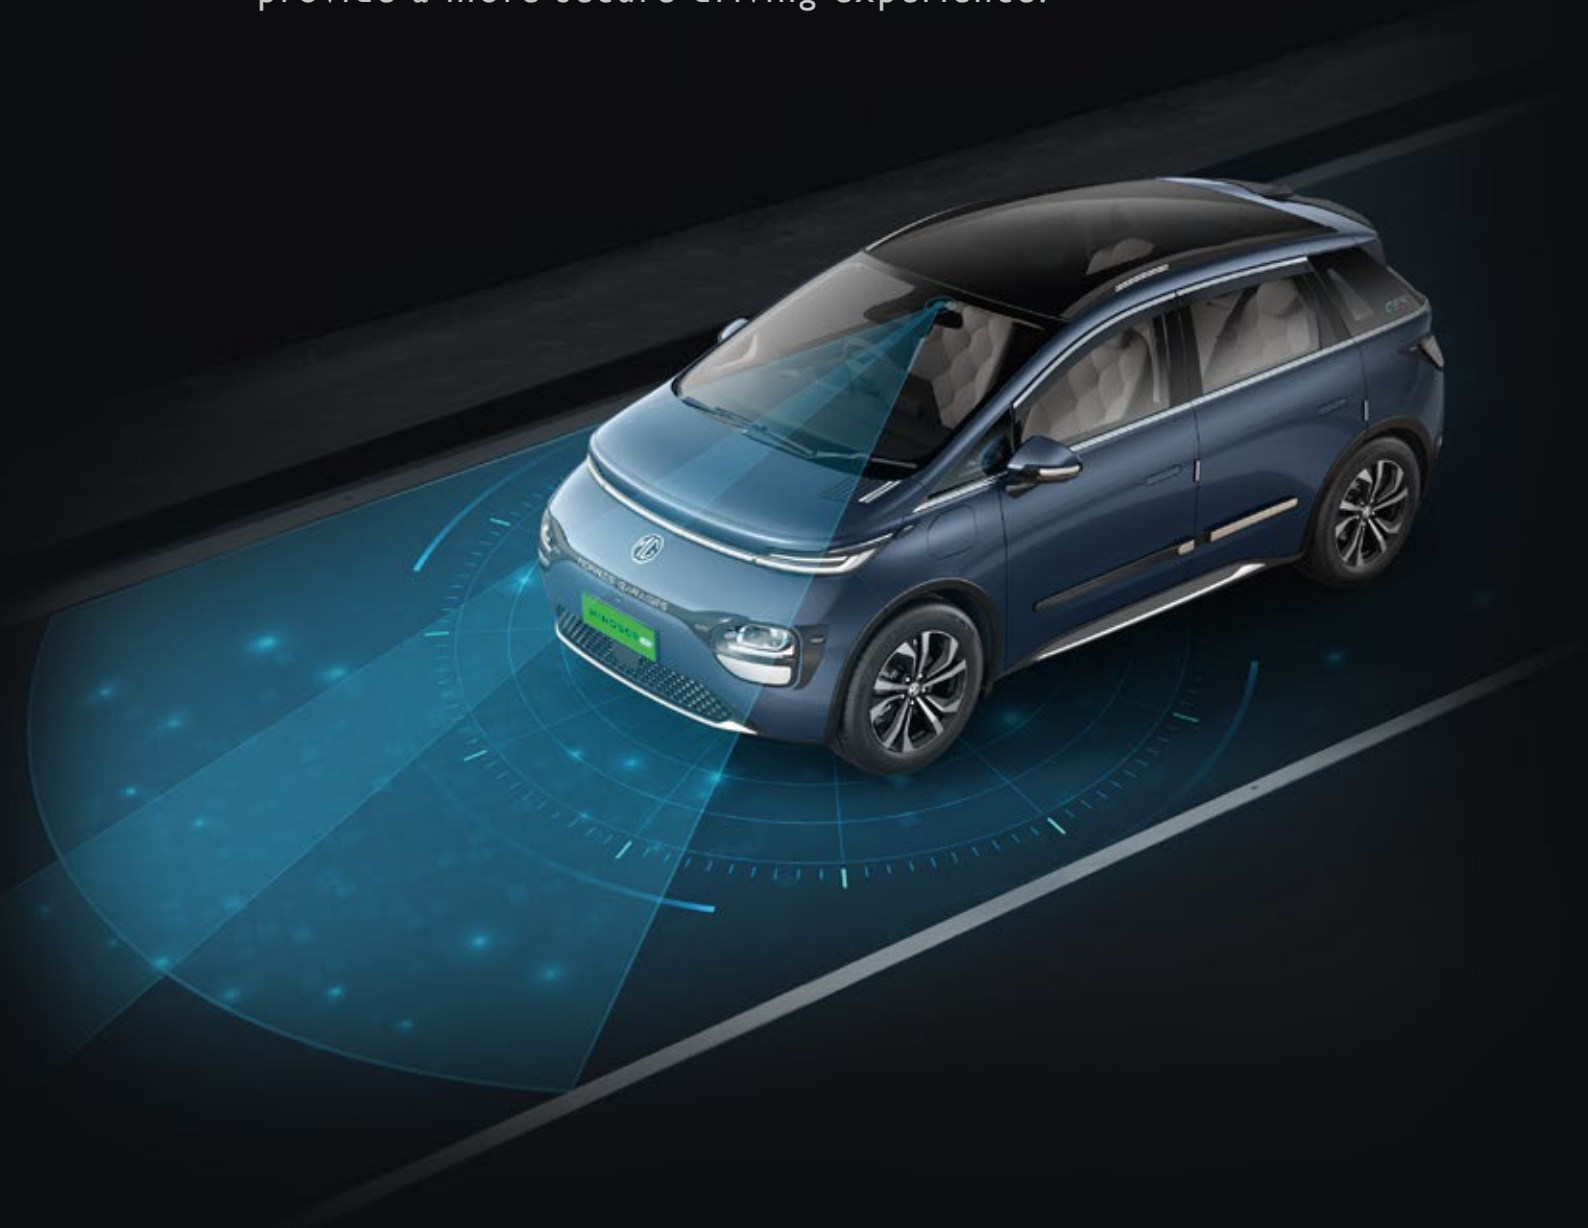
Range may vary depending on various driving behaviour, traffic conditions, speeds, vehicle loads etc. T&C apply.

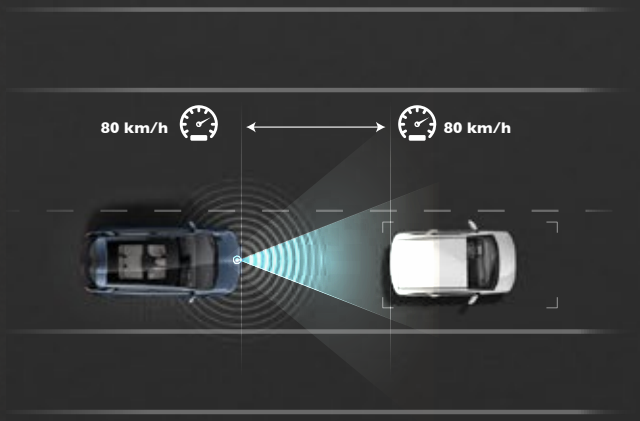
AUTONOMOUS LEVEL 2 FEATURES

The MG Windsor PRO features 12 Advanced Driver Assistance System (ADAS) functions, operating on 3 levels of warning (haptic, audio, and visual).

Its Autonomous Level 2 capabilities enhance comfort and safety by automating driving controls, including acceleration, braking, and steering assistance, to provide a more secure driving experience.

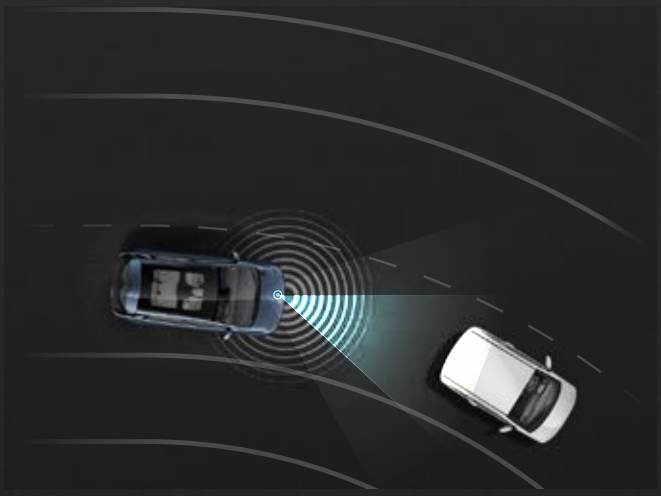


*Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. Features and specifications may vary model wise. Refer to the Owner's Manual for the functioning of ADAS.



TRAFFIC JAM ASSIST (TJA)

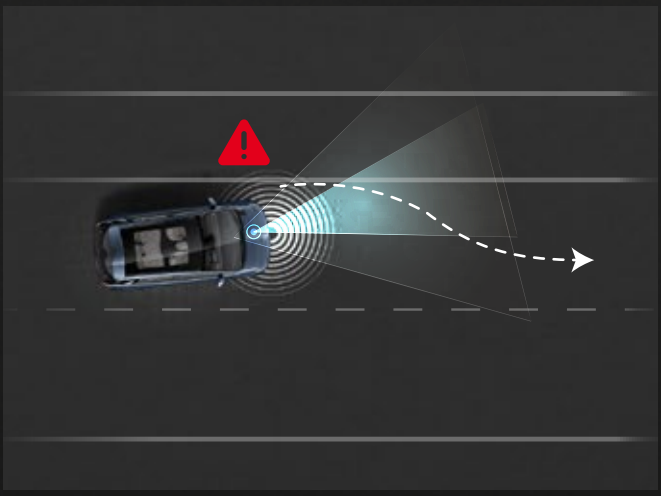
TJA combines Adaptive Cruise Control (ACC) and Lane Keep Assist (LKA) to navigate heavy traffic with ease. It maintains a safe distance and keeps the vehicle centred in its lane, reducing driver effort and enhancing safety and comfort in congested traffic conditions.



ADAPTIVE CRUISE CONTROL (ACC)

Bend Cruise Assistance (BCA)

The ACC system senses the road ahead, automatically adjusting speed to maintain a safe distance from the vehicle in front. The BCA sub-function further enhances this by adjusting the vehicle speed when approaching curves, ensuring a smooth and safe drive.



LANE FUNCTIONS

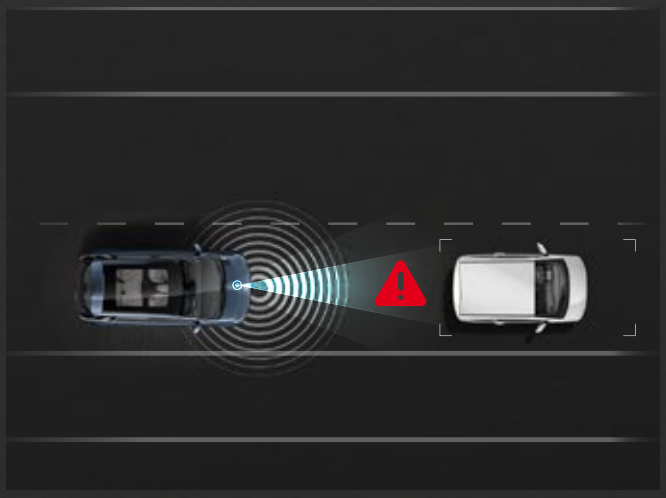
Lane Departure Warning (LDW)
Lane Departure Prevention (LDP)

The camera monitors lane markings, warning the driver of deviations and assisting with steering to prevent unintentional lane departure.

Lane Keep Assist (LKA sub-function of TJA)

LKA ensures the car is being driven in the centre of the lane.

*Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. Features and specifications may vary model wise. Refer to the Owner's Manual for the functioning of ADAS.

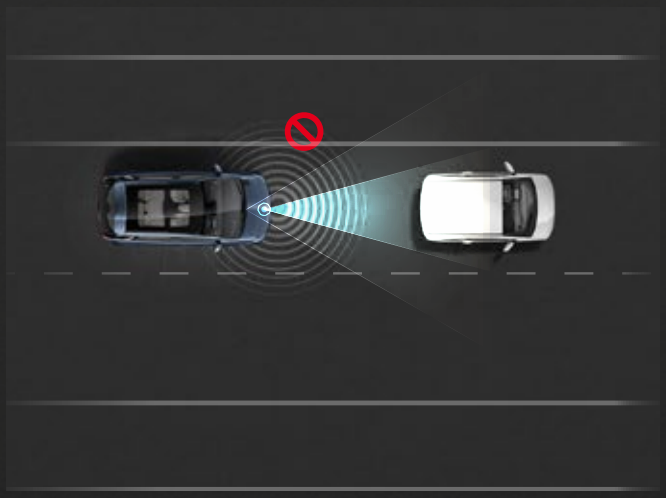


FORWARD COLLISION WARNING

Forward Collision Warning (FCW)

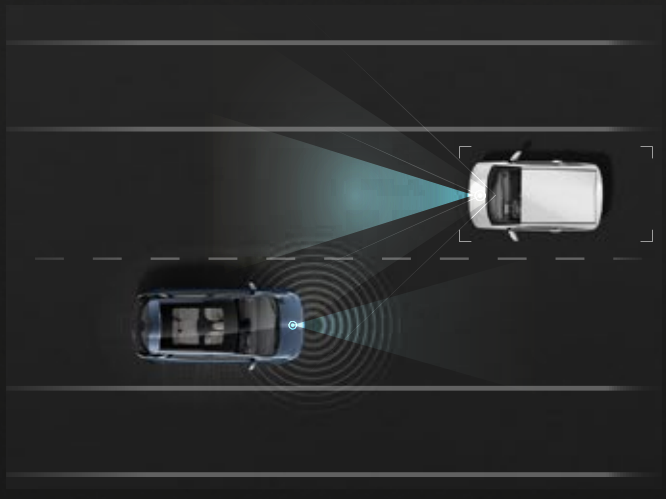
Automatic Emergency Braking System (AEB)

If the driver doesn't respond to a Forward Collision Warning, the vehicle automatically decelerates to prevent a collision. Operating between 10-120 km/h, AEB detects vehicles and can reduce speed by up to 60 km/h.



INTELLIGENT HYDRAULIC BRAKING ASSISTANCE (IHBA)

The feature assists driver in situation where the driver applies the brake, but the braking force is insufficient. Under such scenarios, the system will automatically increase the braking force according to the situation.



INTELLIGENT HEADLAMP CONTROL (IHC)

Intelligent Headlamp Control (IHC) activates and deactivates the high beam, depending on the oncoming traffic and environmental situations. Thus, preventing other road users from blinding due to high beam.

*Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. Features and specifications may vary model wise. Refer to the Owner's Manual for the functioning of ADAS.

6 AIRBAGS* (DUAL FRONT, SIDE & CURTAIN)
STANDARD ACROSS ALL VARIANTS

360° SURROUND VIEW CAMERAS AND REAR PARKING SENSORS

Images & depictions are for illustration & representation purposes only. Features, accessories, and specifications as shown are not standard for all variants. *Refer to the Owner's Manual for detailed information on the operation and functioning of Air Bag system. T&C apply.

SMART TECHNOLOGY

Images & depictions are for illustration & representation purposes only. Features, accessories, and specifications as shown are not standard for all variants. i-SMART standard services are complementary with the purchase of a new MG. The services are activated on the date of delivery and validity period of services will commence from such date. 2GB Data/month free for 3 years from date of delivery. After the consumption of 2GB within a month customer needs to recharge to continue data related services. ** This is an i-SMART premium feature which is a paid option for all vehicles delivered after 6th May 2025 and will need to be Subscribed from the My MG Mobile App.

POWER ON THE GO

The Vehicle-to-Load (V2L*) and Vehicle-to-Vehicle (V2V#) feature harnesses the power of the vehicle's battery to energize daily life. This innovative technology converts the DC power from the vehicle's battery into AC power, making it usable for external devices such as laptops, smartphones, power tools, and even home appliances.

With V2L, you can power devices on the go, use the vehicle as a backup power source during outages or emergencies, stay productive while working remotely, or enjoy outdoor activities without worrying about running out of power. The system also features overcharge protection, overload protection, and automatic shutdown to ensure safe and reliable operation.

Images & depictions are for illustration & representation purposes only. Features, accessories, and specifications as shown are not standard for all variants. *Maximum amount of power output is 3kVA. The V2L adapter is designed exclusively for MG Windsor EV. Use only as directed, following the manufacturer's guidelines. JSW MG Motor are not responsible for any damage caused by improper use, unauthorized modifications, or external factors. Performance may vary based on vehicle Battery capacity, environmental conditions, and connected devices. Always adhere to local regulations and safety standards when using the V2L adapter. #Only for compatible EV models at a power output of 3kVA.
