PRESENTING THE ALL-NEW

**TIGOR iCNG**

**i-MPRESS HO JAAOGE**

# iCNG - iNCREDBLE PERFORMANCE

The advanced iCNG technology assures an unmatched performance, no matter where the road takes you. Quick for city traffic and powerful enough to zip through highways during long commutes. It's the perfect combination of Power and Pickup.

## INCREDIBLY POWERFUL^ CNG SEDAN

The iCNG technology has been designed to deliver exceptional driving experience with best-in-class\* power of 73 ps in CNG mode.

## EASY CITY MANOEUVRABILITY

The iCNG technology allows you to manoeuvre through city traffic with ease using clutch-only pick-up. Now, no more losing your cool by pressing the clutch repeatedly.

## EFFORTLESS DRIVE IN EVERY TERRAIN

The iCNG technology allows you to climb ghats in CNG mode with ease, without lowering gears or switching to Petrol mode.

## RETUNED SUSPENSION

The suspension has been tuned specially for CNG to give smoother rides with 165 mm ground clearance.

# iCNG - iCONIC SAFETY

The Tigor comes with the best-in-class safety\* features and a 4-star Global NCAP rating. It also features an energy-absorbing structure that provides added rigidity to the car's chassis, thus ensuring the safety of the driver and passengers.

## LEAK-PROOF DESIGN

The i-CNG kit has been tested across temperatures and pressures and prevents any gas leaks because it uses high-quality stainless-steel tube and fittings.

## MICRO SWITCH

The micro switch gives additional safety, switching off the ignition as soon as the fuel lid is opened. Also, it will not allow the car to start until the lid is securely closed, with "CLOSE FUEL LID" alert flashing on the instrument cluster.

## THERMAL INCIDENT PROTECTION

The i-CNG technology immediately cuts off CNG supply to the engine in case of a thermal incident and releases gas from the cylinder directly into the atmosphere through a special nozzle as a measure of safety.

## LEAK DETECTION FEATURE

The iCNG technology automatically switches from CNG to petrol mode in case of a gas leak and protects the car and passengers from any harm.

## FIRE PROTECTION DEVICE

The smartly positioned fire extinguisher, placed under the co-driver seat makes sure that safety is easily accessible.

## STRINGENT QUALITY CONTROL

Tigor iCNG is tested rigorously at every stage of manufacturing and uses best quality components to ensure a stress-free experience for customers.

# iCNG - INTELLIGENT TECHNOLOGY

iCNG's intelligent technology works effortlessly to ensure a seamless driving experience for you at every step. From ensuring high performance to lowering maintenance cost, smart technology is a delight at every turn.

## SINGLE ADVANCED ECU

The iCNG technology uses single ECU to ensure seamless shifting between CNG and Petrol.

Advanced ECU maintains optimum air-fuel ratio to give an incredible performance and high fuel efficiency.

## DIRECT START IN CNG

The iCNG technology allows you to start the vehicle directly in CNG Mode. Now enjoy every drive stress-free, without worrying about switching to CNG mode.

## AUTO SWITCHOVER BETWEEN FUELS

The iCNG technology automatically switches to Petrol mode in case of low CNG. The "CNG LOW FUEL" alert on instrument cluster informs the customer about low fuel.

## FASTER RE-FUELING

The iCNG technology ensures faster and safer refuelling with NGV 1 receptacle special nozzle.

## MODULAR FUEL FILTER

The iCNG technology comes with Modular Fuel Filter that only requires cartridge changes instead of entire filter replacements, generating less hazardous waste and lowering the cost of maintenance.

## ENVIRONMENT FRIENDLY

The iCNG technology not only gives great performance, but also ensures a healthier and greener environment for the future generation with 24% lower CO2 emission as compared to gasoline cars.
