Advanced Driver Assistance System (ADAS) is not a substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. Adaptive Cruise Control, Intelligent Speed Assist and Adaptive steering assist with lane centering is available in AT only. Intelligent Speed Assist available in STEALTH Edition only. Address: Tata Motors Passenger Vehicles Limited, 4th Floor Ahura Centre, Mahakali Caves Road, MIDC, Andheri (East), Mumbai - 400093.

HARRIER

-NOW WITH ADAS - LEVEL 2-

Advanced Driver Assistance System (ADAS - Level 2) are advanced technology solutions intended to enhance the road safety by preventing or reducing the impact of potential accidents. ADAS systems activate safety measures by alerting the driver and initiating possible safeguard measures in the vehicle. ADAS by Tata Motors is an intuitive driving technology which is built to take on any surprises while driving, so that you can experience a safe journey with your loved ones.

LANE KEEP ASSIST // NEW

Afraid of unintentional Lane Deviations? Don't Worry now. Your car's Intelligent ADAS

System monitors the Lane markings and corrects your course by automatically adjusting the steering, so that you stay safe in your Own Lane

ADPATIVE STEERING ASSIST WITH LANE CENTERING

Now Enjoy next level of comfort and Safety. The adaptive cruise control system works in tandem with Smart lane centering assist to ensure that your car not only maintains a safe cruising speed but also remains centered in its lane by automatically adjusting the steering when required.

FORWARD COLLISION WARNING

Who knows what lies ahead, right? But your car knows what's coming. Keeps you and others safe on the road through an audio-visual warning that alerts you of any probable collision. The ADAS system monitors the distance from any vehicle, pedestrians or a cyclist in front and gives Audio & Visual alerts, so that you can take necessary action in time.

AUTONOMOUS EMERGENCY BRAKING

Leave no room for uncertainities on road with Autonomous Emergency Braking. The ADAS system monitors the surrounding to identify probable collision scenarios with vehicles, pedestrians and cyclists and if required applies brake automatically* to ensure that you and others stay safe from any harm.

ADAPTIVE CRUISE CONTROL'

This system is designed to help vehicles maintain a safe following distance and stay within the speed limit. This system adjusts the car's speed automatically, so drivers don't have to. These sensory technologies allow the car to detect and warn the driver about potential forward collisions.

You might miss the traffic signs sometimes, but now your car won't. The ADAS system monitors traffic sign boards like "Speed Limits', 'No Overtaking', and provides you with inputs so that you can take necessary corrections if required.

HIGH BEAM ASSIST

Now drive freely on the roads without having to worry about distractions caused by oncoming vehicles. High Beam Assist automatically adjusts headlights from high to low beam when oncoming vehicles are detected.

LANE DEPARTURE WARNING

Your car now helps you to stay alert on road by informing you about the things you are unaware of. The ADAS system monitors lane markings and warns you of any un-intended deviation from the lane.

Blind spots can take you by surprise even on your best days. Blind Spot Detection system monitors vehicle's surrounding to identify any blind spots and alerts you of any possible hazard through audio-visual warnings so that you can take pre-cautionary actions.

LANE CHANGE ALERT

Your car now helps you to stay alert on road by informing you about the things you are unaware of. The ADAS System monitors the surrounding and warns you of any dangerous lane change.

DOOR OPEN ALERT

The ADAS system monitors and informs you and the passengers of any incoming speeding vehicle which might be a potential hazard in event of door opening. It activates audio-visual alerts to ensure that you're not caught off guard while exiting your vehicle.

REAR CROSS TRAFFIC ALERT

The system **prevents you from getting startled by objects** approaching or present in the rear blind spot of the vehicle and alerts you through audio and visual alerts which help in easy and safe reversing.

REAR COLLISION WARNING

The ADAS system **monitors and alerts you of any incoming speeding vehicle** in the rear of your vehicle through audio and visual alerts. It also alerts the driver of incoming vehicle to take necessary actions by blinking of hazard lamps.

#Images are for representation only. Features available in Harrier as per variant walk, refer main brochure for information. Advanced Driver Assistance System (ADAS) is not substitute for human eye and driver vigilance, it is a driver assist system that enhances driving experience and safety. The driver shall remain responsible for safe, vigilant and attentive driving. *AT only.

When the Harrier #Dark takes over the reigns,

Everybody bows down in obedience to its swag.

An epitome of grace, style and sleek looks,

It is truly in a league of its own.

INVINCIBLE #DARK BADGE

MATTE BLACK BODY | LIMITED TO 2700 UNITS*

FEEL THE PRESENCE

"They are not just machines. They are beings."

Moving with intent. Shaping the world around them.

Their presence is not just seen—it's felt.

A shift in the air. A shadow that lingers.

They don't demand attention. They command it.

Light bends. Fog clings. The road seems to move beneath them.

You don't just witness them.

You experience them.

And long after they've passed—the road remembers."
