Future is an attitude

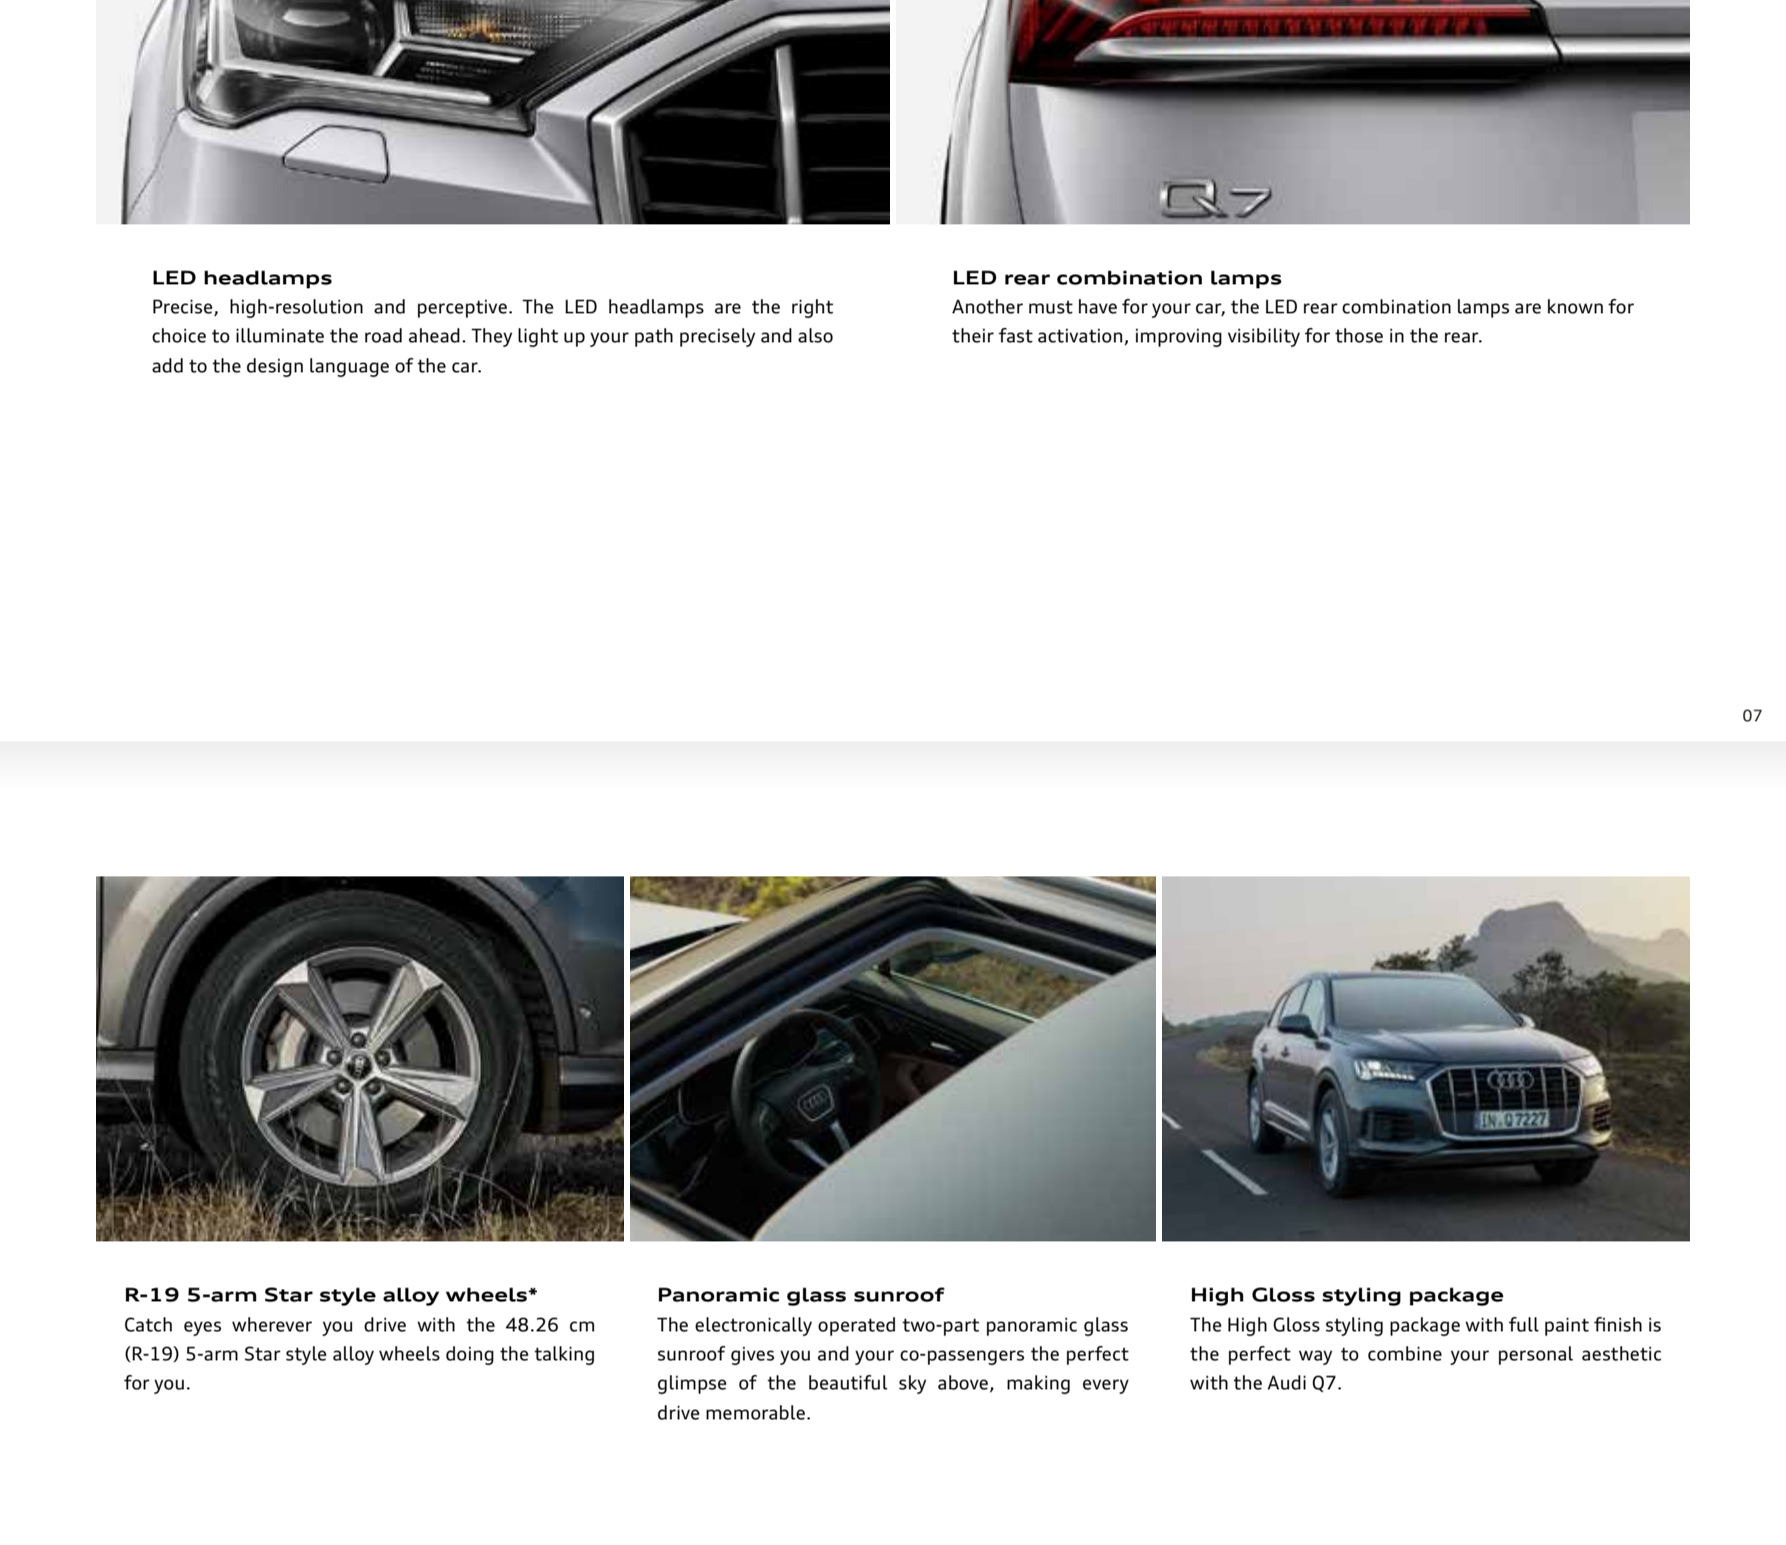

Future is an attitude
 At Audi, we believe that progress is only very forward. Where some people might see just cars, we see the future of mobility. And that's why we make cars with a vision of constant progression. Progress that is beyond measure. At Audi, future is an attitude.

Performance

Driving towards perfection

The Audi Q7 knows how to impress in more ways than one: its athletic exterior is only complemented by a dynamic driving experience. With a powerful 3.0 TFSI 48 V Mild Hybrid TFSI engine that has a maximum speed of 250 km/h and a system output of 340 hp, the Audi Q7 provides a dynamic driving performance, while the quattro all-wheel drive ensures sporty handling. What's more, the car is as comfortable to drive in the city as it is on a quiet trip along the highway, off-roading, or anywhere in between thanks to 7 different drive modes on the Audi Drive Select.

Performance

Power
250 kW/340 hp

Torque
500 Nm

Acceleration
5.9 sec (0 to 100 km/h)

Engine type
3.0 TFSI 48 V Mild Hybrid

Performance features

Audi Drive Select with 7 drive modes
 Choose the most comfortable driving experience for your Audi Q7 from 7 distinct drive modes with the Audi Drive Select. From a standard, automatic drive to a relaxed, comfortable drive, dynamic, efficient or off-road, there's no shortage of experiences to choose from.

Adaptive Air Suspension technology
 With Adaptive Air Suspension technology, riding along any road becomes an easy task. This system provides electronically controlled air suspension with variable damping on all 4-wheels, adjusting the ground clearance as the situation dictates.

quattro All-Wheel Drive
 A standard feature of the Audi Q7, the quattro All-Wheel Drive with self-locking differential redirects power to each individual wheel as required. The mechanical locking function is configured with outstanding driving dynamics and distributes the drive torque to the front and rear axles instantly. The result: outstanding traction, directional stability and a ride unlike any other.

Exterior

More space, more poise

The Audi Q7 is a car that truly dominates, and not just because of its imposing build but because of its design, which is in a league of its own. The octagonal outline with vertical chrome slats makes the Singleframe grille stand out in the front and is the first thing to catch your eye. Redesigned side sill trims underscore the vehicle's ground clearance and suggest that the SUV can also be driven off-road. It's sloping, robust frame is only topped off with an all-new, redesigned bumper with higher air inlets, for a three-dimensional look.

Exterior features

LED headlamps
 Precise, high-resolution and perceptive. The LED headlamps are the right choice to illuminate the road ahead. They light up your path precisely and also add to the design language of the car.

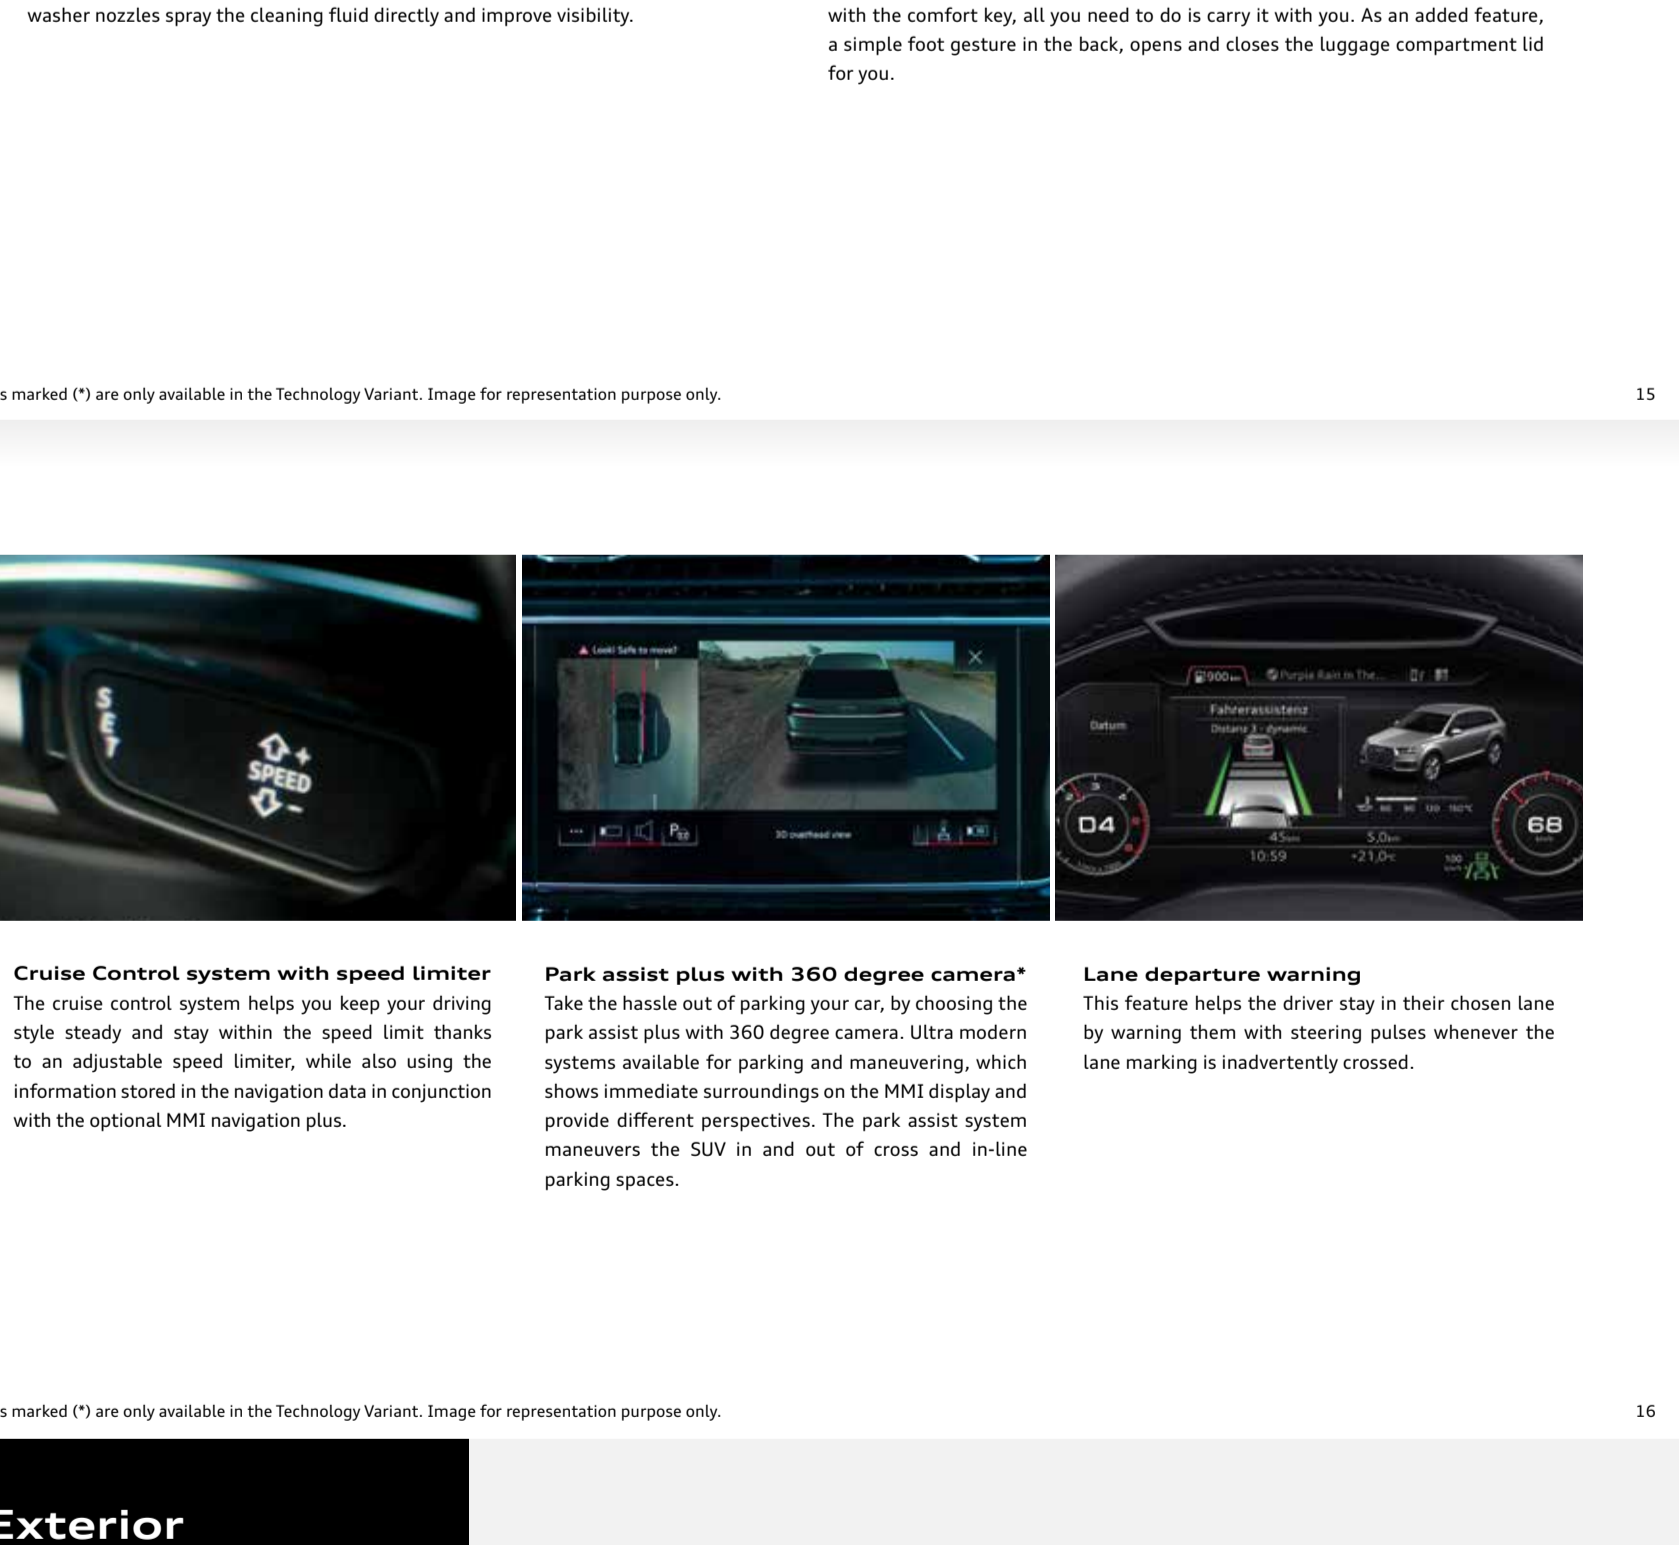

LED rear combination lamps
 Another must-have for your car: the LED rear combination lamps are known for their fast activation, improving visibility for those in the rear.

R-19 5-arm Star style alloy wheels*
 Catch eyes wherever you drive with the 48-26 cm (R 19) 5-arm Star style alloy wheels doing the talking for you.

Panoramic glass sunroof
 The electronically operated two-part panoramic glass sunroof gives you and your co-passengers the perfect glimpse of the beautiful sky above, making every drive memorable.

High Gloss styling package
 The High Gloss styling package with full paint finish is the perfect way to combine your personal aesthetic with the Audi Q7.

All features marked () are only available in the Technology Variant. Image for representation purpose only.

Interior

Room for more

Catch eyes wherever you drive with the 48-26 cm (R 19) 5-arm Star style alloy wheels doing the talking for you. The Audi Smartphone Interface grants you control of your smartphone inside your Audi Q7. This enables you to use selected apps from your mobile device directly on the vehicle's MMI touch response display. The integrated user interface provides a familiar graphic display and menu structure.

Air Ionizer and Aromatization*
 With the Air Ionizer and Aromatization, the air inside your Audi Q7 is sure to smell fresher than a meadow. While the ionizer improves the air quality inside the car, the fragrance provides for a subtle, pleasant smell by adding slight amounts of an olfactory agent to the air flow from the air conditioning system.

Cricket leather upholstery
 The cricket leather upholstery inside the Audi Q7 exudes luxury and exclusivity, making all seats premium and comfortable.

8 Airbags
 The Audi Q7 goes all in on everything that it does and that includes keeping you and your loved ones safe. 8 airbags have been placed in the front and sides of the car to keep all passengers safe, no matter what.

Electrically folding third row seats
 Make the spacious Audi Q7 even more spacious in the rear, thanks to the electrically folding third row seats for added space.

All features marked () are only available in the Technology Variant. Image for representation purpose only.

Interior features

4-Zone Air Conditioner
 The 4-Zone Air Conditioning enables each occupant to regulate the climate control independently. The required temperature and air distribution can be controlled separately for each seat. The system is operated on the intuitive display with touch response or via the rear air-conditioning controls with touch operation.

Contour ambient lighting
 Choose the right shade to light up the interiors of your Audi Q7 with the contour ambient lighting system. Select from up to 30 colour options that highlight the best parts of the spacious interiors.

Front power seats with driver side memory function
 The electrically adjustable power seats in the front are well-suited to aid the needs of the driver and are completely flexible, with a wide range of customization options available. What's more, the driver's seat comes with a memory function - 2 presets for the electrically adjustable front seats and exterior mirrors, which can be stored and activated via the memory button in the door trim.

Technology and Infotainment

Innovative, intuitive, connective

The Audi Q7 offers some of the best-in-class technological innovations. The interiors of the car are as intuitive and versatile as they are comfortable. Standard Audi features such as the Audi Virtual Cockpit and the Audi Smartphone Interface grant controls of the car right at your fingertips, while features such as the comfort key, cruise control and Park Assist Plus* make life a whole lot easier.

8&10 premium sound system*
 The Bang & Olufsen premium sound system with 8 or 10 speakers is a must-have audio equipment for your Audi Q7. With 19 speakers and a remarkable 730 W output, coupled with 3D sound technology, your lavishly spacious Audi Q7 is sure to feel no less than a concert hall.

Dual screen MMI navigation plus with MMI touch response
 Navigate, communicate, obtain information or just enjoy the wide range of infotainment options using the dual screen MMI navigation plus with MMI touch response. The intuitive touch-based system provides haptic feedback and a host of functions, ranging from navigation on a 3D Map to other control functions. It can be operated via the touch display, voice control with natural language interaction and enhanced character recognition for an equally sensational experience.

2 USB ports with charging function in rear*
 Charge your smartphone or other devices on-the-go, using either the 2 USB ports with charging function in the rear.

All features marked () are only available in the Technology Variant. Image for representation purpose only.

Technology features

Adaptive windscreen wipers with integrated washer nozzles*
 These electronically functioning adaptive windscreen wipers with integrated washer nozzles spray the cleaning fluid directly and improve visibility.

Comfort key with Sensor based lid control*
 Unlike all doors of your vehicle remotely, including the luggage compartment lid with the comfort key, all you need to do is carry it with you. As an added feature, a simple foot gesture in the back, opens and closes the luggage compartment lid for you.

Audi Virtual Cockpit
 Innovative, adaptive and intuitive: The Audi Virtual Cockpit is an advanced, fully digital instrument cluster that flexibly displays relevant information on demand. The 31.24 cm display offers full HD quality. The display can be tailored to the driver's requirements to show speed, maps, radio, media information and plenty more.
