the icon reinvented

New Renault Duster rewrites its legend in a whole new way. Modern, sophisticated design with powerful presence featuring an exclusive grille, enhanced ground clearance, and a muscular body. The iconic launch edition elevates this stance with a unique Himalayan inspired side embellisher, specific iconic yellow door decal, and specific iconic yellow accents on the front grille, tailgate and roof bar.

The enlarged grille with Duster emblem along with signature front & rear LED lights enhance the bold stance of the SUV. The 45.72 cm (18") alloy wheels add a powerful feel to its silhouette.

Sleek rear end showcases the features of a sophisticated SUV: LED horizontal rear light bar for enhanced visibility and protective skid plates.

With 212 mm of ground clearance, the SUV is ready for uneven roads and every terrain you take it on. Approach angle of 26.9° and departure angle of 34.7° help tackle steep slopes and obstacles with confidence.

distinguished interior

The driver centric cockpit is designed for enveloping comfort, featuring front ventilated seats and leatherette interior. Yellow accents highlight the mountain jade leatherette wrap upholstery, complemented by carbon-finish detailing on the dashboard and door inserts. The steering wheel and armrests extend these signature yellow design touches from the exterior.

openR link multimedia system with Google built-in

Enjoy connectivity with the openR link multimedia and integrated Google services⁽¹⁾. Access Google Maps directly on the 25.65 cm (10.1") openR link multimedia system for smooth and intuitive navigation. Take control with Google Assistant and explore your favourite apps available via Google Play.

Closed road, new direction of traffic, roadworks... always take the best route with Google Maps integrated into the system, delivering navigation even without a smartphone.

With the voice assistant, simply say "Hey Google..." Talk to it to plan a trip, check your schedule, or turn on/off the AC.

Explore multimedia apps including Prime Video, Radioplayer for Renault, Youtube Music, Spotify, Amazon Music and exclusive content via Google Play.

Prime Video is a streaming app that brings stories from around the world to your screen. From exclusive Amazon Originals to global hits, Prime Video lets you watch what you love, when you want.

YouTube Music you stream songs, albums, and playlists with smart recommendations that keep every drive entertaining.

take the road while listening to playlists, and much more, with **Amazon Music**, included with your Amazon Prime subscription.

Radioplayer for Renault is a smart radio app designed for the road. It brings together live stations, podcasts, and music, all in one place. Stay connected, entertained, and in control while you drive.

Spotify brings millions of songs, curated playlists, and podcasts together to give every journey the perfect soundtrack.

⁽¹⁾Google, Google Play, Google Maps, Waze, and other marks are trademarks of Google LLC. depending on countries.

humanized technology

Stay connected on every drive with wireless smartphone replication that brings your apps, navigation and media directly to the vehicle interface. Renault connected services on the My Renault app give you easy access to key vehicle information and useful controls even when you are away from the car. A clear TFT driver display and wireless smartphone charging add further convenience.

The 26.03 cm (10.25") TFT driver display presents all the data the driver needs at a glance. Essentials are available everywhere, at any time, including map on driver display.

Driver and passengers can set separate temperatures with dual zone AC, while a clean air display tracks real-time cabin air quality. 48 colour ambient lighting subtly shift to match selected drive modes for a responsive driving experience.

[configure and order →](#)

new standards of comfort

The driver-centric cockpit includes a tilted display dashboard with dual openR screens and an elevated central console with e-shifter. For ultimate driving comfort on every journey, take a seat in electric & ventilated front seats with 6-way adjust and manual lumbar adjustment. Immerse yourself in a rich audio experience with six speakers distributed throughout the cabin.

Electric panoramic sunroof designed to bring all the surrounding natural light into the cabin.

Unlock convenience at a single touch with the electric powered tailgate, designed for fluid, hands-free operation. The low loading edge eliminates heavy lifting and ensures ease of use.

From weekend escapes to daily runs, the 700L* boot space handles it all with ease. It is a masterclass in spatial design, providing the freedom to pack for every possibility.

*518L till parcel shelf and 700L till roof

05. advanced driver-assistance systems

17 advanced driver-assistance systems

adaptive cruise control with stop & go
The system uses the front radars and cameras to maintain the cruising speed as long as the selected following distance is respected. It brakes to keep that distance, if necessary until the vehicle comes to a complete stop, and accelerate back to the cruising speed as long as the following distance is maintained.

360° around view 3D camera
The 4 cameras, whose images recreate the vehicle's direct environment 360° around it, allow you to maneuver effortlessly in complete safety.

active emergency braking system - urban/pedestrian/cyclist
The camera and radar sensor provide a warning and intervene to avoid any collisions with pedestrian, cyclist or vehicle.

lane keep assist
Applies a correction to the steering wheel to bring the vehicle back into its lane.

traffic sign recognition
The system uses the front camera, combined with connected map data, to identify the current speed limit. The speed limit is displayed on the vehicle's driver display panel.

blind spot warning
Enabled at speeds over 15 km/h, this system uses warning lights to alert you to the presence of vehicles that are not visible in your field of vision.

driving assistance

the human first program is a comprehensive safety program developed by Renault in collaboration with researchers, experts and fire-fighters.

because road safety is the business of all road users –be they pedestrians, cyclists or motorists– the human first program by Renault undertakes to:

- 1. prevent accidents by developing safety equipment and advanced driving and safety assistance systems**
17 advanced driver-assistance systems, 6 airbags, child seats (Isofix), Renault's Fixe4sure solution/more than 2,000 safety-related patents filed since 1970
- 2. manage accidents once they have happened by drawing on innovations developed in collaboration with fire-fighters**
QRescue/Fireman Access/more than 5,000 fire-fighters trained over the past 10 years in 20 countries throughout the world/around 400 cars given per year for their training
- 3. reduce the number of accidents and their severity by investing massively in R&D**
safety score/safety coach/connected services/big data/artificial intelligence and cybersecurity systems
