THE NEW CITROËN C5 AIRCROSS SUV
THE MAN BEHIND A CENTURY-OLD LEGACY

Brand Citroën owes its remarkable success to an audacious, maverick Frenchman.

André Citroën.

Driven by a dream to make cars more accessible to everyone, he founded Citroën in 1919. With his groundbreaking vision, the company would go on to revolutionise car manufacturing in Europe and become a pioneer in automotive innovation.

André Citroën developed double helical gears with V-shaped teeth, years before he founded the company he named after himself. The gears proved to be a game-changer, bringing him immense success. Little wonder, then, that the gears held great significance for him – so much so that he based the design of Citroën's logo on the very same gears.

Besides his entrepreneurial gifts, he was renowned for his advertising acumen, dazzling audiences with bold and never-seen-before campaigns.

André Citroën’s spirit has endured at Citroën for over a century, inspiring the company’s designers and engineers to be as audacious as he was. And to push the boundaries of what is possible.
During the 90s, Le Tone had a major hit, “Joli Dragon”, and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011, his creations have been exhibited in famous places such as the Pompidou Centre.

An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories through his felt pen drawings.

Citroën revolutionises the automotive landscape with Traction Avant. The famous name comes from its groundbreaking front-wheel drive engineering.

Citroën launches ‘TUB’, a supremely practical modern design with a sliding side door. Its successor, the famous Type H (above), launched in 1947.

The much-loved 2 CV is created as a “safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage”. More than 5 million are made.

Citroën launches CX. It’s the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. The sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard helped it succeed amongst more ordinary rivals.

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertoni, earns it the nickname ‘flying saucer’. Under the skin it’s just as advanced.

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this will go on to sell around 2.5 million units.

Citroën C4 Cactus was awarded the “World Car Design of The Year” title in April 2015, confirming that this car challenged the status quo with its bold and innovative style.

1974
Citroën launches CX. It’s the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. The sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard helped it succeed amongst more ordinary rivals.

1934
Citroën revolutionises the automotive landscape with Traction Avant. The famous name comes from its groundbreaking front-wheel drive engineering.

1939
Citroën launches ‘TUB’, a supremely practical modern design with a sliding side door. Its successor, the famous Type H (above), launched in 1947.

1948
The ‘mayfly-loved’ 2 CV is created as a “safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage”. More than 5 million are made.

1955
Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertoni, earns it the nickname ‘flying saucer’. Under the skin it’s just as advanced.

1968
It’s a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1970
The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this will go on to sell around 2.5 million units.

1981
Citroën presents the New e-C4, a 100% electric vehicle. Drawing on Citroën’s rich 92-year history in the hatchback segment, the New e-C4 offers cutting-edge design and exceptional on-board comfort.

GS 2
COMFORT CLASS SUV

For over a century now, we, at Citroën, have dedicated ourselves to designing and engineering not just cars, but a lifestyle. One that is inspired by your life and your well-being with our innovative design and creativity.

Since 1919, we have been at the forefront of automotive comfort. Comfort that inspires you to dream of greater freedom and adventures. And now, we are delighted to present to you the New Citroën C5 Aircross SUV. Featuring the Citroën Advanced Comfort® programme, suspension with Progressive Hydraulic Cushions®, Advanced Comfort Seats and the latest infotainment system, the SUV is the perfect combination of our hundred-year legacy and futuristic technology.

Experience the unmatched comfort of the New Citroën C5 Aircross SUV.
9 KEY STRENGTHS

SMOOTH UNIQUE VEHICLE
An SUV with dynamic design and comfort throughout.
PAGES 10-11

7 EXTERIOR COMBINATIONS
With 4 body colours and an optional black roof, it’s easy to create your perfect personal look.
PAGES 16-17

SUSPENSION WITH PROGRESSIVE HYDRAULIC CUSHIONS®
Exclusive to Citroën, this system delivers a real flying carpet ride.
PAGES 30-31

ADVANCED COMFORT SEATS
Uniquely welcoming and comfortable, these seats make the interior feel more like a contemporary lounge.
PAGES 32-33

*Vehicle with unique comfort.

3 INDEPENDENT ADJUSTABLE REAR SEATS
Welcome to the only SUV in its class with 3 independent adjustable rear seats.
PAGES 36-37

CHANGE YOUR SPACE
With rear seats that slide, recline and fold away altogether, the New Citroën C5 Aircross SUV offers plenty of flexibility.
PAGES 38-39

ROOM FOR EVERYTHING
Roomy and versatile, this is the biggest boot in its class.
PAGES 40-41

DRIVING AND SAFETY AIDS
Welcome to a haven of advanced safety.
PAGES 50-51

NEW EAT8 AUTOMATIC GEARBOX
A great balance of efficiency and driving pleasure.
PAGES 52-53
With the Citroën Advanced Comfort® programme influencing every stage of its design, the New Citroën C5 Aircross SUV is the most comfortable and modular SUV in its category. As a result, it’s the perfect complement to your everyday life.
With a muscular profile and plenty of attitude, the New Citroën C5 Aircross SUV redefines the feel of its class. Imposing and bold, it’s elegantly contemporary in every detail, without a trace of arrogance. At the front, there’s the unmistakable double chevron design and powerful curved side panels. The 360° glazed surfaces are highlighted by a dynamic chromed ‘C’ motif. The rear lights feature four rectangular 3D LED modules, which emphasize the vehicle’s broad stance.
An SUV needs to take varied and difficult surfaces in its stride. The New Citroën C5 Aircross SUV does precisely that with Grip Control®, which provides secure traction in all conditions. This ingenious system has five modes – Standard (ESC), Snow, All-Terrain (Mud, Damp Grass, etc.), Sand and Traction Control Off – that you can select instantly using a dial on the centre console.

For safety and control while travelling downhill there is the Hill Descent Assist feature, which minimises the risk of skidding or unwanted acceleration as you descend. It works both, in forward and reverse gears as well as in neutral.
With 4 body colours and 3 bi-tone roof options, the New Citroën C5 Aircross SUV is a very individual choice. The stylish alloy wheels add to the design. The three Biotone options are available on both Feel and Shine variants.

**7 COMBINATIONS**

**4 BODY COLOURS**
- PEARL WHITE (P)
- CUMULUS GREY (M)
- TIJUCA BLUE (M)
- PERLA NERA BLACK (M)

**3 BI-TONE ROOF OPTIONS**
- PEARL WHITE (P)
- CUMULUS GREY (M)
- TIJUCA BLUE (M)
The moment you open the door, you’ll sense it. The New Citroën C5 Aircross SUV welcomes you with a rare mix of refined comfort and space. Settle in and you’ll quickly appreciate the high driving position, great visibility and prestigious feel. The horizontal lines of the dashboard subtly incorporate a range of useful technologies, such as the 8” touchscreen and 12.3” digital cluster. Carefully selected colours and tactile materials such as Grey Grained Leather and Graphite Cloth are inspired by the world of travel. Gloss Black details and chrome inserts emphasize the inspired attention to detail.
INTERIOR AMBIENCE

FEEL AT HOME
Expressing yourself on the inside is now made easier. The ambience in the New Citroën C5 Aircross SUV is understated and aesthetically pleasing.

METROPOLITAN GREY AMBIENCE
Refined and subtle, the Metropolitan Grey ambience brings you Grey Grained Leather and Graphite Cloth seats with a lighter grey band, combined with a centre console and dashboard top in grey.
Contemporary and welcoming, the New Citroën C5 Aircross SUV’s interior has been designed to ensure serenity reigns supreme. The CITROËN ADVANCED COMFORT® programme delivers innovative, technological and intelligent solutions for drivers and passengers alike, and confirms Citroën’s driving comfort credentials. The four main themes at the heart of this comfort engineering are: Flying Carpet Effect, Cocooned in Comfort, Panoramic Life and Intuitive Technologies.
Bright, welcoming and typically Citroën, the New Citroën C5 Aircross SUV is special on the inside as well as the outside. Exceptionally spacious, the interior is a haven of calm, thanks to the double-laminated front windows and acoustic windshield glass. Wind and road noise are kept to an absolute minimum.

The on-board Air Quality System (AQS) enhances the sense of well-being even further. Designed to detect environmental pollution, it automatically filters and purifies the air entering and circulating through the cabin.
The Panoramic Glass Sunroof makes every journey special whether it’s open or closed. Filling the interior with natural light, it really enhances the epic views enjoyed from the New Citroën C5 Aircross SUV. Powered by dual electric motors with an in-built auto-reverse safety function, it’s easy to use and also features a blind for adjusting brightness levels as per your comfort.

*Standard on SHINE variant

**PANORAMIC LIFE**

---

The Panoramic Glass Sunroof makes every journey special whether it’s open or closed. Filling the interior with natural light, it really enhances the epic views enjoyed from the New Citroën C5 Aircross SUV. Powered by dual electric motors with an in-built auto-reverse safety function, it’s easy to use and also features a blind for adjusting brightness levels as per your comfort.

*Standard on SHINE variant*
Exclusively developed by Citroën, the suspension with Progressive Hydraulic Cushions® redefines pure driving comfort. It smoothens large bumps and minor road surface imperfections, making the New Citroën C5 Aircross SUV feel like a flying carpet. Stability and dynamics are also assured. Welcome to the best of both worlds.

THE FLYING CARPET EFFECT

Exclusively developed by Citroën, the suspension with Progressive Hydraulic Cushions® redefines pure driving comfort. It smoothens large bumps and minor road surface imperfections, making the New Citroën C5 Aircross SUV feel like a flying carpet. Stability and dynamics are also assured. Welcome to the best of both worlds.
When big bumps are encountered, the hydraulic cushions keep suspension movement controlled and progressive. With cushions that absorb minor road imperfections, you can enjoy a relaxing flying carpet ride.

Bumps Are History

Ordinary suspension makes do with a shock absorber, a spring and a mechanical bump stop. The New Citroën C5 Aircross SUV comes with Progressive Hydraulic Cushions® that provide specially designed suspension on either side for rebound and compression for the occupants’ comfort. The result is a ride that takes everything in its stride, smoothly.

CITROËN ADVANCED COMFORT®
Taking inspiration from contemporary furniture, the seats in the New Citroën C5 Aircross SUV provide unmatched lounge-like comfort on the move. With broad cushions and seat backs, they combine high density foam at the heart of each seat and a thick, textured foam at the surface. Perfect support and softness are guaranteed, whether it’s the shortest of trips or the longest of journeys.
With 3 independent adjustable rear seats of the same width, the New Citroën C5 Aircross SUV provides the same level of comfort and space, wherever you’re sitting. With multiple reclining positions and the ability to slide up to 150 mm, they are comfortably accommodating.

The modular and flexible rear seat design offers fold-away rear seats that provide a perfectly flat floor for generous luggage-carrying capacity. 3 INDEPENDENT ADJUSTABLE REAR SEATS
You can reconfigure the roomy, flexible interior of the New Citroën C5 Aircross SUV to suit your needs. The sliding, reclining, and foldable rear seats make it easy.
The New Citroën C5 Aircross SUV has a roomy 580L boot, but this is just the beginning of the story. Move the rear seats to their furthest forward position and you’ve got up to 720L, giving you the most generous boot in its class*. With the modular rear seats folded away, there’s an amazing 1630L of boot space.

Accessing all this flexible space is effortless too, because of the Hands-Free Electric Tailgate*, which you can simply open and close by moving your foot under the rear bumper and have the option to close with a touch of a button as well.

*Standard on SHINE variant
Part of being truly comfortable when you’re travelling is having a perfect place for everything you need. The New Citroën C5 Aircross SUV has plenty of useful storage solutions. The large compartment under the central armrest has a section that can carry a 1.5L bottle, whilst the glove box and door pockets are roomy too. You’ll also appreciate the large storage area at the front of the centre console.
The New Citroën C5 Aircross SUV makes sure your digital world is always with you. Additionally, these features are dedicated to safety and making life on the move easy and enjoyable, giving you great access and control to your systems.
With its sharp display and instant responses, it offers you a choice to connect to AM/FM Radio, portable devices through USB, and your smartphone for a seamless experience. This smart screen also offers the option to control the Air-Conditioning System. It also displays the Reverse Camera input and the unique Coffee Break Alert. In addition, it controls the unique Park Assist feature for Parallel and Perpendicular parking with Automatic Steering control.

With 3 Personalisation modes and 3 Ambience options of Brown, Blue and Red, the two digital displays are customisable for your taste and mood.
OPTIMAL SMARTPHONE USAGE ON THE GO

The latest 8" touchscreen brings you instant responses and clear visibility of your smartphone. Ideally placed for safe use, it enables you to access and enjoy the features of your smartphone and stay connected with it on the road. In other words, you get everything you need to enjoy complete peace of mind, everywhere.

MIRROR SCREEN

This intelligent app uses the touchscreen to mirror your smartphone, displaying all driving compatible apps. Depending on your phone’s operating system, apps can be controlled by voice so you can keep your eyes on the road. The system is compatible with Android Auto and Apple CarPlay™.

*Dependent on smartphone model
10 SAFETY AND DRIVER AID SYSTEMS

CITROËN LED VISION*

Equipped with LED lighting technology, the New Citroën C5 Aircross SUV ensures you have the right light for night driving. With LED modules, daytime running lights, and direction indicators, the Citroën LED Vision is a safe choice for you.

*Dependent on the variant selected

BLIND SPOT MONITORING SYSTEM

Really useful on multi-lane roads, this monitoring system warns you if there’s a vehicle in your blind spots, using an orange LED in the corner of the door mirror.

FOG LIGHTS WITH STATIC CORNERING FUNCTION

Providing an additional light beam on the inside of bends, this innovation makes tricky bends and junctions safer and easier to navigate.

HILL DESCENT ASSIST

Designed to prevent unwanted movement when you release the brake pedal on slopes, Hill Descent Assist operates at speeds under 35 mph. It holds the vehicle for about 2 seconds, giving you time to move calmly from brake to accelerator pedal.

HILL START ASSIST

Designed to prevent unwanted movement when you release the brake pedal on slopes, Hill Start Assist works on gradients over 3%. It holds the vehicle for about 2 seconds, giving you time to move calmly from brake to accelerator pedal.

REVERSING CAMERA WITH TOP REAR VISION

Engage the reverse gear and the camera displays a 180° rear view on your 8” touchscreen. Additional coloured lines on the display make the position of obstacles clearer.

KEYLESS ENTRY AND START

Convenient and ingenious, you can now lock and unlock your car without taking out your key. The New Citroën C5 Aircross SUV also recognises you as you approach the vehicle.

ELECTRIC PARKING BRAKE

Safe and easy, the Electric Parking Brake applies automatically when the engine is switched off and releases when you move away. You can also use it manually using the control paddle on the centre console.

PARK ASSIST

Perfect for parallel or bay parking, this system detects a space, then automates the steering to park in complete safety. All you need to do is engage the gears and control the accelerator and brake.

UNIQUE COFFEE BREAK ALERT

When it’s time to take a break, this system sends you a warning. It activates once you’ve been driving for 2 hours continuously at more than 65 km/h.

HILL START ASSIST

Designed to prevent unwanted movement when you release the brake pedal on slopes, HILL Start Assist works on gradients over 3%. It holds the vehicle for about 2 seconds, giving you time to move calmly from brake to accelerator pedal.

Here’s a traction control system created to optimise front wheel grip for all kinds of road surfaces. The centre console mounted dial makes it easy to select one of the 5 modes: Standard (ESC), Snow, All Terrain (Mud, Damp Grass, etc.), Sand and Traction Control Off.

Hill Descent Assist holds your vehicle at a low, controllable speed on steep slopes. You can activate it from a button on the centre console and it works in both forward and reverse gears as well as neutral.

PARK ASSIST

Perfect for parallel or bay parking, this system detects a space, then automates the steering to park in complete safety. All you need to do is engage the gears and control the accelerator and brake.

The New Citroën C5 Aircross SUV stands out with its latest EAT8 Automatic Gearbox. More fuel efficient than ever, it provides incredibly smooth shifts between gears, making it a real pleasure to drive. You can also change gears manually if you want to, using the Steering Wheel Mounted Paddles, shifting seamlessly between Automatic and Manual modes.
The New Citroën C5 Aircross SUV gives you the latest and most efficient diesel engine. It is mated to a highly refined 8-speed Automatic Gearbox delivering 177 PS of power and 400 Nm of torque for extremely comfortable journeys and maximising your driving pleasure. The efficient and refined Stop-Start function is designed for increasing fuel efficiency and environmental consciousness.
