ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

DESIGNED. LIKE NO OTHER

How do you redefine an icon? Push harder. Dig deeper. You go above and beyond. You capture its very essence. Then you reimagine it. You design, engineer and build it without compromise. Until you've created a vehicle that's absolutely of the moment. One that's visually compelling, with a go-anywhere-do-anything attitude and toughness at its very core. Capable of great things, this is Land Rover Defender. It couldn't be anything else.

Off-road sequences on dedicated land with full permissions. Challenging off-road driving requires full training and experience. Risk of injury and damage. Never drive beyond your abilities. Always check route, surface, base and exit before entering frozen terrain.

Vehicle shown is Defender 90 SE in Pangea Green with optional Satin Protective Film.

Vehicles shown throughout are from the Land Rover global range. Specifications, optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online. All in car features should be used by drivers only when safe.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

Everything about Defender exudes quiet confidence; from its purposeful stance to its reductive, sophisticated surfaces, its integrity is beyond reproach. Both highly desirable and seriously capable. Tough, durable and highly functional, Defender's interior bears testimony to the vehicle's spirit of adventure. Structural elements are made of robust materials. Intuitive technologies - like those you're more likely to find on a smartphone - deliver a connected, engaged drive without taking anything away from the vehicle's ambience. Added to which, everything has been designed with practicality in mind. With a cabin walk-through*, an optional front jump seat and centre console, the space can be configured any number of ways. Including yours.

*Model dependent.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

PERSONALISATION

PURPOSEFUL DESIGN. ENDLESS POSSIBILITIES

Defender is our most capable Land Rover yet. You can opt for either a 90 or 110 body design together with a choice from three levels of finish; S, SE and HSE. (The differences include their individual wheels - size and style - interior trim and levels of technology). You can have up to six seats in the 90 and the option of a third row with 5 + 2 seats in 110.*

Select from Defender, Defender First Edition, Defender X-Dynamic and Defender X - and four Accessory Packs, each with a distinctive character. It all adds up to the greatest possible levels of personalisation.

EXTERIOR DESIGN

Vehicle shown is Defender 90 SE in Pangea Green with optional Satin Protective Film.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

Impressive proportions and a reassuringly recognisable silhouette help define Defender's arresting looks. Whilst short overhangs, great ground clearance and upright front and rear elevations give credence to the vehicle's capabilities. Floating pillars and alpine lights add to its personality, with solid shoulders and powerful squared-off wheel arches that communicate the vehicle's purposeful stance. This is design with undoubted integrity. And unrivalled purpose.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

Approachable. Confident. No nonsense. With its compact, upright look, Defender's front profile features a raised bonnet, sculpted grille and detailing. Together with such characterful touches as round headlights and some of our most sophisticated surfaces yet, these aspects help reinforce the vehicle's overriding sense of capability.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

A celebration of design and functionality. The perfect fusion of form, vertical stance and attitude. From behind, the vehicle looks both utterly modern and perfectly planted. Whilst details like the side-opening tailgate with externally mounted full-size spare wheel and characterful tail lights all point to Defender's distinctive nature.

EXPOSED STRUCTURAL SURFACES. POWDER-COATED ACCENTS

Uncompromisingly tough, the visible fixings for the major interior components underscore Defender's absolute integrity. Strength, durability and highly functional interior architecture are in its DNA.

For instance, the interior's exposed structural surfaces are finished in a highly durable textured powder coat, extending to the steering wheel and doors*. Built to take the knocks, the cross car beam is an integral structure which adds greatly to Defender's strength.

DURABLE INTERIOR MATERIALS

The spirit of boundless adventure is the first and lasting impression of Defender's interior. Thanks in part to its materials. These include a canvas-inspired Robust Woven Textile, which is offered with the grained leather seats to reduce wear and tear in areas where it is needed most.

Defender X-Dynamic takes this even further. In the cabin, you'll find Robustec - our most durable material. Ever. Its PU platelets mean it's not only incredibly hardwearing but also abrasion resistant. So much so, in fact, that when the fabric went for testing, it withstood the equivalent of a 30-year life cycle - more than triple the industry standard.

Defender X unique hard-wearing seat materials include Windsor leather combined with Kvadrat Steelcut Premium wool textile. There is also a choice of veneers and finishers on the console, including an open pore wood available with a Rough-cut Walnut or Natural Smoked Dark Oak veneer.

EXPLORER PACK

CONSISTS OF:

Raised Air Intake is ideal for dusty and sandy conditions.

Expedition Roof Rack¹ has a lightweight, fully integrated design, providing a dynamic load capacity of up to 132 kg².

The 24 l **Exterior Side-mounted Gear Carrier**¹ is easy to access, lockable and waterproof. It's perfect for carrying items such as walking boots or wetsuits.

Matte Black Bonnet Decal enhances the bonnet's appearance and includes a '90' or '110' cut-out detail.

Wheel Arch Protection provides additional protection when driving off-road.

¹Roof Rails required for fitment. ²Defender 110 with off-road tyres.

Front and Rear Classic Mudflaps retain the heritage of Land Rover Defender while protecting the paintwork.

Spare Wheel Cover protects the rear-mounted spare wheel.

UPGRADES

Front Expedition Protection System provides robust protection to the front of the vehicle and the raised corners improve the front approach angle.

Improving access to the roof, the **Deployable Roof Ladder**¹ makes stowing your belongings easier. For added security, the ladder can be locked in the stowed position.

Fixed or Deployable Side Steps aid access into the vehicle. Deployable Side Steps² automatically deploy as the doors are opened.

Bright Side Tubes³ enhance the side of the vehicle whilst providing protection to the door sides during off-road driving.

The **Loadspace Rubber Mat** is waterproof with a non-slip surface and helps protect the rear loadspace floor from general dirt, while **Deep-sided Rubber Mats** provide the ultimate in footwell protection.

¹Roof Rails required for fitment.

²Available for Defender 110 only. Not compatible with Fixed Side Steps or Bright Side Tubes.

³Not compatible with Fixed Side Steps or Deployable Side Steps.

⁴Not available with PHEV.

ADVENTURE PACK

CONSISTS OF:

Clean your equipment easily with the 6.5 l pressurised **Portable Rinse System**. Including a hose and shower attachment, it can be used to rinse boots, bikes and wetsuits.

Secured to the rear seat, keep all of your essential items at hand, yet neatly out of sight. Easily removable, the versatile 20 l **Seat Backpack** can also be taken with you when you leave the vehicle.

Bright Rear Scuff Plate protects the rear bumper from scratches and scuffs while loading the vehicle.

Front and Rear Mudflaps add to the design of the vehicle and protect the paintwork from dirt and debris.

Spare Wheel Cover protects the rear-mounted spare wheel.

The **Integrated Air Compressor**¹ is fitted in the loadspace and can be used to inflate vehicle tyres, bike tyres, airbeds and other inflatable items.

The 24 l **Exterior Side-mounted Gear Carrier**² is easy to access, lockable and waterproof. It's perfect for carrying items such as walking boots or wetsuits.

UPGRADES

The **'A' Frame Protection Bar** increases protection against damage to Defender's front, as well as enhancing the vehicle's appearance.

Fixed or Deployable Side Steps aid access into the vehicle. Deployable Side Steps³ automatically deploy as the doors are opened.

Bright Side Tubes⁴ enhance the side of the vehicle whilst providing protection to the door sides during off-road driving.

The **Loadspace Rubber Mat**¹ is waterproof with a non-slip surface and helps protect the rear loadspace floor from general dirt, while **Deep-sided Rubber Mats** provide the ultimate in footwell protection.

¹Not available with PHEV. ²Roof Rails required for fitment. ³Available for Defender 110 only. Not compatible with Fixed Side Steps or Bright Side Tubes. ⁴Not compatible with Fixed Side Steps or Deployable Side Steps. Vehicle is shown with Front Undershield and Cross Bars.

MONOCOQUE ARCHITECTURE

Unique monocoque architecture contributes to Defender being the toughest and strongest vehicle we have ever created. It has triple the torsional rigidity of a body-on-frame design. Whilst being lightweight, fuel-efficient and engaging to drive.

TESTED TO THE EXTREME

1.2 million kilometres of on and off-road drives. 45 000 individual tests. From +50 to -40 degrees. Crossing the dunes of Dubai to sweeping down the straights of the Nürburgring. We've conducted altitude tests, drenched Defender in 85 000 l of dyed water in our monsoon facility and engineered its tyres to withstand greater impact. In fact, we've gone to more challenging extremes than ever before to create a vehicle that's capable of great things. This is Defender.

 BUILD YOUR OWN

GO ANYWHERE. DO ANYTHING

Defender has been engineered so you can dream bigger.
Push harder. Go above and beyond.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

ALL WHEEL DRIVE (AWD)

Compelling performance. Off and on road. The system intuitively controls the torque distribution between the front and rear axle. On challenging surfaces, such as sand, grass or snow, torque can be balanced between the front and rear wheels to maximise traction. In extreme conditions, where the front or rear wheels lose traction, 100 percent of engine torque can be distributed to the opposite axle for optimum grip. Our new Intelligent AWD System* takes this even further by allowing variable torque distribution, resulting in a more precise and dynamic on-road performance and higher torque capacity - all without sacrificing any of Defender's inherent off-road capability. Plus, it delivers enhanced fuel economy and reduced CO₂ emissions. It's your world. Take command.

TWIN-SPEED TRANSFER BOX

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing.

*D300 6-cylinder Diesel only.

Vehicle is shown with accessory Front Expedition Protection System. It improves off-road capability by increasing the front approach angle.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

COIL SUSPENSION AND ELECTRONIC AIR SUSPENSION

The coil sprung suspension system combines double wishbones at the front with an advanced multi-link rear suspension, to create an agile and responsive chassis. A comfortable and capable drive is ensured by Electronic Air Suspension*. Select from an access height of 40 mm below normal ride height, to an extended height of up to 75 mm. For extreme off-road conditions, a further extended ride height of 70 mm is available. Even across unsteady surfaces it provides exceptional wheel articulation and poise.

*Linked feature.

ELECTRONIC ACTIVE DIFFERENTIAL

On or off-road. In ice, rain or snow. The optional Electronic Active Differential ensures the greatest level of traction. It does so by controlling the slip between the left and right wheels on the rear axle, helping to deliver effortless capability. Not only that, it's far more effective than brakes when traction is lost, reacting much faster and with a smoother response.

Vehicle shown is Defender 110 X in Gondwana Stone.

CONFIGURABLE TERRAIN RESPONSE*

Thanks to a world-first in Terrain Response, you can now individually configure Defender's powertrain, steering, differentials and traction control settings. This means you can go beyond - be it the Siberian tundra, or rock crawling in Moab. So, get behind the wheel and discover what you're truly capable of.

*Only available as part of a pack when not standard.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALISATION

TERRAIN RESPONSE 2

This vehicle is for those who aren't afraid to get out and live the way they want to live. Our unique Terrain Response systems enable the driver to optimise the vehicle's engine, gearbox, centre differential and chassis systems to match the demands of the terrain.

The optional Terrain Response 2 takes the capabilities of our award-winning system to a new level. It features an automatic setting which monitors the terrain and systematically selects the most suitable setting.

*Linked feature.

-  General Driving
-  Grass, Gravel, Snow
-  Mud and Ruts
-  Sand
-  **Rock Crawl***
-  **Wade***

HILL DESCENT CONTROL

Difficult slopes? You needn't worry. Hill Descent Control (HDC) assists you with tricky descents by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline. The vehicle also utilises Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

ALL TERRAIN PROGRESS CONTROL (ATPC)

All Terrain Progress Control (ATPC)* is a state-of-the-art optional system. It enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1.8 km/h and 30 km/h, enabling you to maintain full concentration on the terrain ahead.

*Linked feature;.

DESIGN

PRACTICALITY

TECHNOLOGY

PERSONALISATION

TOWING

Whatever you take. Wherever it is you decide to go. Defender's 3 500 kg¹ towing capability means it can readily respond to the most challenging demands. Combined with this is the optional Advanced Tow Assist², which allows you to reverse a trailer while Defender takes care of the counter-steering. The Touchscreen will also display both the current and desired trailer trajectory.

¹Engine dependent. ²Linked feature.

WINCHING

Pulling power and sheer strength are demonstrated with the Remote Control Electric Winch* accessory. This has a maximum pulling force of 4 536 kg and can be operated up to 45 metres away. It's the kind of no-nonsense practicality you need, say, when you're in the middle of the forest. Learn how to check, prepare, maintain and use a winch at one of our Experience Centres.

DEFENDER PLUG-IN HYBRID

 BUILD YOUR OWN

Tackle the most challenging conditions and terrains. Efficiently. P400e uses the combination of an advanced 2.0 l 221 kW Si4 Ingenium Petrol engine with an additional 76 kW of electric power to deliver a combined output of 297 kW.

Vehicle shown is Defender 110 HSE in Fuji White.
Accessories shown: Explorer Pack with Front Expedition Protection System, Fixed Side Steps, and Deployable Roof Ladder upgrades.

PLUG-IN HYBRID

The electric motor can either supply its power in parallel with the engine or, drive the vehicle in the manually selectable Electric Vehicle (EV) Mode. The large 19.2 kWh capacity battery gives the vehicle an all-electric range of some 53 km* from full charge. So, when you're conquering the urban jungle or tackling those shorter off-road journeys, you do so with zero tailpipe emissions.

PHEV is precise. Uncompromising. It is fully capable of handling off-road situations such as wading and rock crawl. Its on-road performance is equally remarkable, delivering additional power and torque when you need it most through a combination of electric motor and petrol engine. What's more, Defender PHEV has been specially engineered to tackle the toughest terrains, whilst additional technology will moderate the engine temperature, even in the hottest of climates.

PERSONALISATION

PETROL AND DIESEL

There is a range of engines available for Defender: a D300 6-cylinder Diesel, a P300 4-cylinder Petrol, or a P400 6-cylinder Petrol. Each has been optimised for specific attributes to cater for all needs.

Diesel engines offer better fuel economy over greater distances and produce higher levels of torque at lower engine speeds. This makes them the ideal choice for longer journeys, motorway cruising, towing or off-roading.

Defender's petrol engines are even more powerful, which can provide a more engaging and direct driving experience. They are even more refined and are better suited to shorter, stop-start journeys.

All engines are equipped with intelligent Stop/Start technology which is designed to improve fuel efficiency and reduce emissions.

MHEV

Mild Hybrid Electric Vehicle (MHEV) technology will be fitted to the 6-cylinder D300 and P400 engines. It harvests and stores energy normally lost during vehicle deceleration and intelligently redeploys it to increase the engine's efficiency. This system helps improve fuel economy and boosts the vehicle's performance.

- 1 48 V LITHIUM-ION BATTERY

No more endless menus. No more fidgety commands. Pivi Pro, Land Rover's impressive and seamless in-car infotainment system, enables you to do 80 percent of most tasks with just one or two taps. All on the home screen. Engineered around a smartphone-like interface, it features an intuitive 25.4 cm (10) Touchscreen that allows you to go right to what's needed, when you need it. Voice control reacts to a simple wake up phrase such as 'Hello Land Rover'. Plus, you can even connect your smartphone* and enjoy your favourite compatible apps.

*Compatible smartphones only. Your vehicle is prepared for Apple CarPlay. The services offered by Apple CarPlay depend on feature availability in your country, please see apple.com/in/ios/feature-availability/#apple-carplay for more information. Your vehicle is prepared for Android Auto. The services offered by Android Auto depends on feature availability in your country, please see android.com/intl/en_in/auto/ for more information. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Mobile network connectivity cannot be guaranteed in all locations. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system-visual changes depending on options selected.

PREMIUM FUNCTIONALITY

With Pivi Pro, you can enjoy fast start-up and even greater connectivity. And, since the Remote App¹ is also fitted as standard, your Land Rover Defender is always in the palm of your hand. Preset your navigation, confirm your vehicle's location, check fuel levels and set the interior temperature - all before you've opened the car door. Along the way, intelligent re-routing can find you the best path to take, as well as updating parking availability, café locations and traffic hotspots. Intelligent and intuitive, it also learns your regular and favourite routes, so that Smart Voice Guidance can make sure your song won't be interrupted with unnecessary instructions. A 31.24 cm (12.3) Interactive Driver's Display is optional, as is a Head-up Display² which projects key information onto the windscreen in your line of sight, so you can focus on the road ahead.

¹Remote contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store. ²Linked feature. Navigation directions on the windscreen only appear when Pivi Pro is fitted to the vehicle.

HOW DOES MUSIC MAKE YOU FEEL?

Music has the power to change your mood, evoke memories and affect your wellbeing. It can give you tingles or make you cry. It's why music and cars go so well together. Sitting behind the wheel, listening to your favourite artist, band or composer. It's your space. Your world.

But what if you could do more than simply listen to the music? What if you could feel it, experience it, immerse yourself in it? What if you could make more of a connection with the music and enjoy a greater sense of acoustic involvement in your Land Rover?

British-based Meridian™* Audio are all about the musical experience - the very sense of being there. Their award-winning, precision-engineered audio systems are built on a lifetime of research into psychoacoustics (the science of how the human brain perceives sound) to deliver a performance that is so true to life, you feel every beat, every breath.

*Meridian is a registered trademark of Meridian Audio Ltd. Trifield and the three fields device is a trademark of Trifield Productions Ltd.

WITH MERIDIAN™, YOU'LL FEEL MORE

We're not simply talking about increasing the volume levels. It's more about managing the sound stage; intensifying the levels of depth, clarity and realism of the music by using a combination of advanced acoustic technology and strategically positioned speakers to produce an audio platform that is exactly right for your Land Rover's interior. So wherever you sit in the vehicle - driving seat, passenger seat or rear seat - with a Meridian system, you get the same incredible experience.

Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It's intimate, dramatic and very atmospheric - whether you're off-road or stuck in rush-hour traffic.

EXPLORE MERIDIAN

6 SPEAKERS 180 W AMPLIFIER POWER

1. SOUND SYSTEM (180 W)

Exceptional acoustics and audio range with high-quality definition through six speakers.

10 SPEAKERS 1 SUBWOOFER 400 W AMPLIFIER POWER

2. MERIDIAN SOUND SYSTEM* (400 W)

Feel the rhythm of the music with exceptional definition, crystal-clear highs and full, deep bass with this classic audiophile soundstage. Through the careful management of door-mounted speakers placed nearest your seat, you'll enjoy a performance that is incredibly smooth, clean and free of strain.

3. MERIDIAN SURROUND SOUND SYSTEM (700W)

A truly engaging, thoroughly authentic concert hall experience. Driver and passengers are enveloped in the fullness and clarity of an open, spacious performance through a set of side, front and rear speakers. And it's all seamlessly integrated using Trifield™ technology, so you can sit back and absorb every detail.

BRIGHTER LIGHTS. SAFER NIGHT-TIME DRIVING

Defender features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and are more fuel-efficient as they use less energy. Premium LED headlights* with signature DRL produce a colour of light that is closer to daylight, helping you distinguish objects more easily and reduce driver fatigue. Driving at night or in poor visibility is made easier by Auto High Beam Assist which switches on automatically and dips for oncoming traffic.

MATRIX LED HEADLIGHTS

Matrix LED headlights* with signature DRL enable an Adaptive Driving Beam. By splitting the main beam into vertical strips, the adaptive beam maximises the number of high beam sections for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. The adaptive beam is also able to optimise the light distribution to suit the driving conditions of town, country, motorway or bad weather.

*Model dependent.

PERSONALISATION

CLEAR SIGHT GROUND VIEW

Thick forest terrain. The odd bough and boulder scattered across the muddy track. How do you get through with greater confidence?

Available as part of the standard 3D Surround Camera system, ClearSight Ground View gives you the added benefit of being able to 'see through' the bonnet - giving you confidence when manoeuvring around any obstacles. Even bollards in the city. This feature displays a camera view of the front underside of the vehicle on the large central Touchscreen - in normal circumstances, this area would be invisible to the driver.

ClearSight Ground View dependent on 3D Surround Camera. Image is not live. Check surroundings for safety. Subject to local regulations.

Vehicle shown is Defender 90 HSE in Pangea Green.
Accessories shown: Adventure Pack (Roof Rails required for fitment) with Fixed Side Steps and 'A' Frame Protection Bar upgrades. Cross Bars also shown.

CLEAR SIGHT INTERIOR REAR VIEW MIRROR

If the boot is piled high with equipment and you can't see a thing through the rear window? No problem. Defender's ClearSight interior rear view mirror* uses a live video feed so you can see the path, or convoy, behind you. This is regardless of equipment or passengers in the back who may be blocking your vision.

*Optional feature, subject to local regulations. If bifocal or varifocal users cannot easily adjust focus on the ClearSight digital rear view image, they may revert to rear view mirror mode at any time.

SAFETY AND DRIVER ASSISTANCE

Relax. Even in heavy traffic. Land Rover Defender has been built using our advanced technologies and driver assistance features. The more you use them, the more you'll find they don't take over your drive, they simply help take the stress out of it - that's got to be good. All the following are standard:

A comprehensive system of six airbags including driver and passenger airbags, side curtain and thorax airbags to help protect occupants.

Cruise Control and Speed Limiter allows you to maintain the current speed of the vehicle without the need to continually use the accelerator pedal.

Driver Condition Monitor detects when you're starting to feel drowsy and gives an early warning to take a break.

Vehicle shown is Defender 90 X-Dynamic HSE with optional features fitted.

3D SURROUND CAMERA

3D Surround Camera helps you see more. New 3D exterior perspectives alongside a 360° overhead view make manoeuvring easier, while off-road views including the innovative ClearSight Ground View provide you with confidence when scaling various terrains.

Wade Sensing uses ultrasonic sensors in the door mirrors to provide real-time pictorial information about the water depth when wading. The system lets you know when water levels are near the 900 mm* maximum wading depth.

*Coil suspension 850 mm. Air suspension 900 mm.

EXTERIOR COLOURS

Defender does take a nod to its origins. Its colours were influenced by earth or supercontinents, including Pangea and Gondwana. There's also Tasman Blue which is a modern reinvention of a heritage Defender colour. An optional Satin Protective Film* can also be applied to the vehicle's exterior. Not only does this deliver a rich, Satin finish which is environmentally sustainable, it's also seriously tough. Designed to meet - and surpass - the rigorous requirements of the aerospace industry, to help protect the paint from scratches, damage and even the sun's UV rays.

TYRES

For the toughest demands. The most capable and tough vehicle needs tyres which are just as robust. That's why Land Rover Defender is equipped with 815 mm diameter tyres as standard. They improve ground clearance, off-road geometry and traction. An increased sidewall depth also means the vehicle is less prone to punctures and can withstand more damage.

Distance from the centre indicates level of performance - 10 being best.

- All season (Option fitment - Band A)
- Off-road (Standard fitment - Band C)
- Professional Off-road (Market dependent. Retailer fitment only - Band E)

PROUD PARTNERS

Tusk Trust - one of our prized partners for some 15 years - does truly remarkable work in the Borana Conservancy in Kenya. So where better to put Defender through additional tests? One of our prototypes went out there to tow heavy loads, wade through rivers and carry supplies across unforgiving terrain in a series of real-world trials at the 14 000-hectare reserve. Needless to say, the vehicle proved itself beyond any doubt.

Maximum torque Nm / r/min	650 / 1 500-2 500	
Capacity (cc)	2 996	
No. of cylinders/Valves per cylinder	6 / 4	
Cylinder layout	In-line	
Bore/stroke (mm)	83.0 / 92.31	
Compression ratio (:1)	15,5:1	
Fuel tank capacity - useable litres	85	
Diesel Exhaust Fluid (DEF) - useable litres	20.7	
Diesel Particulate Filter (DPF)	■	

DEFENDER 110 TECHNICAL SPECIFICATION

	DIESEL MHEV
	D300
PERFORMANCE	
Acceleration (s) for 0-100 km/h	7.0
Maximum speed km/h	191
BRAKES	
Front type	4 piston opposed 2 piece caliper
Front diameter (mm)	363
Rear type	Single piston sliding fist with iEPB and ventilated disc
Rear diameter (mm)	350
Park Brake	Integrated Electric Parking Brake (iEPB)
WEIGHTS (kg)*	
Seating	5 / 5 + 2
Unladen weight (EU)**	2 415 / 2 471
Unladen weight (DIN)†	2 340 / 2 396
Gross Vehicle Weight (GVW)	3 200 / 3 280
Maximum Payload††	Up to 800
TOWING (kg)	
Seating	5 / 5 + 2
Unbraked trailer	750
Maximum towing	3 500
Maximum coupling point/nose weight	150
Maximum vehicle and trailer combination	6 700 / 6 780
ROOF CARRYING (kg)	
Maximum roof load (including cross bars)	100
Maximum dynamic roof load (including Expedition Roof Rack)	100 / 168‡
Maximum static roof load (including Expedition Roof Rack)	300

*Weights reflect vehicles to standard specifications. Optional extras increase weight.
 **Includes a 75 kg driver, full fluids and 90% fuel.
 †Includes full fluids and 90% fuel.
 ††Dependent on specifications and seating configuration.
 ‡Dynamic roof load allows for up to 168 kg when fitted with Off-road tyres.

‡Applies to Defender X.

‡‡Dynamic roof load allows for up to 168kg when fitted with Off-road tyres.

DEFENDER 90 DIMENSIONS AND CAPABILITY

STANDARD RIDE HEIGHT

With roof antenna (Coil suspension / Air suspension)
1 974 mm / 1 969 mm

HEADROOM

Maximum front/rear headroom:
With standard roof 1 030 mm / 980 mm
With panoramic roof 1 030 mm / 946 mm
With folding fabric roof 1 030 mm / 946 mm

LEGROOM

Maximum front legroom 993 mm
Maximum rear legroom second row 929 mm

LOADSPACE CAPACITY

Height 904 mm, Width 1 183 mm
Loadspace width between arches 1 124 mm
Maximum loadspace volume
behind first row Dry* 1 263 l, Wet* 1 563 l
behind second row Dry* 297 l, Wet* 397 l

OBSTACLE CLEARANCE

Off-road (Coil suspension / Air suspension) 226 mm / 291 mm
Standard (Coil suspension / Air suspension) 225 mm / 216 mm

TURNING CIRCLE

Kerb-to-kerb 11.3 m
Wall-to-wall 12.0 m
Turns lock-to-lock 2.7

WADING DEPTH

Maximum wading depth (Coil suspension / Air suspension)
850 / 900 mm

*Dry: volume as measured with VDA-compliant solid blocks (200 mm x 50 mm x 100 mm). Wet: volume as measured by simulating the loadspace filled with liquid.

**In off-road height and tow eye cover removed.

Fitting of side tubes or side steps may affect the off-road capability of the vehicle. Challenging off-road driving requires full training and experience.

Width 2 008 mm mirrors folded
Width 2 105 mm mirrors out

Front wheel track
Air suspension 1 706 mm
Coil suspension 1 704 mm

Rear wheel track
Air suspension 1 702 mm
Coil suspension 1 700 mm

Length behind
second row 460 mm

Loadspace
width
1 183 mm

Length behind
first row 1 313 mm

Overall Length 4 583 mm (4 323 without Spare wheel)

	A	B	C
Ride Height			
Approach Angle	31.5° (37.5°)	25.5° (31.0°)	35.5° (40.0°)
Ramp Angle		25.0° (24.2°)	
Departure Angle			37.9° (37.6°)
Off-road** - Coil (Air)			
Standard - Coil (Air)	31.0° (30.1°)		

DEFENDER 110 DIMENSIONS AND CAPABILITY

STANDARD RIDE HEIGHT

With roof antenna 1 967 mm

HEADROOM

Maximum front/rear headroom
with standard roof 1 032 mm / 1 025 mm
with panoramic roof 1 032 mm / 1 025 mm
with folding fabric roof 1 032 mm / 1 025 mm

LEGROOM

Maximum front legroom 993 mm
Maximum rear legroom second row (5 seat / 5 + 2 seat)
992 / 975 mm

LOADSPACE CAPACITY

Height 904 mm, Width (5 seat / 5 + 2 seat*) 1 211 / 1 188 mm
Loadspace width between arches 1 160 mm
Maximum loadspace volume
behind first row (5 seat / 5 + 2 seat*)
Dry** 1 946 / 1 826 l, Wet** 2 380 / 2 233 l
behind second row (5 seat / 5 + 2 seat*)
Dry** 857 / 743 l, Wet** 1 075 / 916 l
behind third row Dry** 160 l, Wet** 231 l

OBSTACLE CLEARANCE

Off-road 291 mm^{††}
Standard 218 mm

TURNING CIRCLE

Kerb-to-kerb 12.84 m
Wall-to-wall 13.12 m
Turns lock-to-lock 2.7

WADING DEPTH

Maximum wading depth 900 mm

*Not available on P400e. On P400e variants, the loadspace capacity reduced by up to 116 l and the loadspace floor is raised by 36 mm. Please contact your local Land Rover Retailer for more information.

**Dry: volume as measured with VDA-compliant solid blocks (200 mm x 50 mm x 100 mm). Wet: volume as measured by simulating the loadspace filled with liquid.

[†]In off-road height and tow eye cover removed.

^{††}The figures provided are manufacturer's estimates and will be replaced with the official EU test figures as soon as they are available. For comparison purposes only. Real-world figures may differ.

Fitting of side tubes or side steps may affect the off-road capability of the vehicle. Challenging off-road driving requires full training and experience.
