

NEW **VELLFIRE**
SELF CHARGING HYBRID ELECTRIC VEHICLE

L U X U R Y F O R T H E S E N S E S .
S U S T A I N A B I L I T Y F O R T H E S O U L .

A wide-angle photograph of a paved road winding through a dense forest. Sunlight filters through the thick canopy of trees, creating a warm, golden glow and long shadows on the road surface. The road curves gently to the right in the distance. The overall atmosphere is serene and natural.

WELCOME TO THE WORLD OF SUSTAINABLE LUXURY.

Luxury and sustainability are worlds apart. While luxury is synonymous with indulgence and lavishness, sustainability is about restraint and thoughtfulness. The Vellfire bridges this divide and brings these two distinctive worlds together, redefining the future of mobility along the way. While its opulence indulges you with comfort, its sustainability ensures a greener, less polluted future for you and the generations to come.

Go ahead...indulge in the luxury that gives back.

A MASTERPIECE OF LUXURY AND CRAFTSMANSHIP.

The Vellfire is an icon of luxury. From its bold exteriors to its luxurious interiors, every inch exudes elegance and sophistication. A fine blend of refined materials and exquisite craftsmanship accentuates its opulence, making it a vehicle that resonates with you.

Crafted for the connoisseur.

POWERS A GREENER FUTURE
WHILE POWERING YOU FORWARD.

Discover The Hybrid Electric Advantage:

Eco-conscious & Economical

Lower Emissions

Like every Toyota hybrid electric car, the Vellfire Self Charging Hybrid Electric, significantly reduces CO₂ than an equivalent car in the same class. This will have considerable long-term positive effects on the environment, that is sure to create a better future.

Unmatched Fuel Efficiency

Intelligently designed, the engine and the Self Charging Hybrid Electric work in harmony to deliver unmatched fuel efficiency.

No Charging Required

Being able to switch engine modes mean distances are never a worry. When the battery does run low, excess power from the engine charges it back up again, keeping you going. Plus, the action of braking recycles energy to charge the battery, wasting nothing.

Performance & Comfort

Responsive Power

The new Vellfire's Self Charging Hybrid Electric technology doesn't just help the environment, it also works in total synergy to deliver a smoother, more powerful acceleration and a more responsive torque, exactly when you need it.

Quieter Drive

Compared to conventional cars, the Toyota Vellfire Self Charging Hybrid Electric Vehicle gives you a quieter driving experience and an absolutely tranquil cabin ambience.

DESIGNED FOR THE HUMAN SOUL AND MOTHER NATURE.

The Vellfire isn't about just luxury. It is sustainable too. The hybrid electric engine creates a greener, cleaner future for everyone. It reduces the consumption of fossil fuels and the emission of harmful CO₂ gases into the environment, safeguarding our planet from global warming and other harmful effects. As much as it is an icon of ultimate luxury, it's a symbol of sustainability too.

To drive the Vellfire is to know mobility as the planet intended.

The Vellfire is unlike anything you've ever experienced before. A testament to a new kind of luxury. A luxury that's sustainable and cares for the environment. For your own trust with the Vellfire, please reach out to us and our concierge will help you indulge.
